Established in 1979

EXA has over 35 years bringing customized trailer designs and manufacturing excellence to a wide range of industries, such as oil and petroleum, upholstery, food, automotive, construction, freight, agriculture, mining and aerospace.

EXA's reputation is built on:

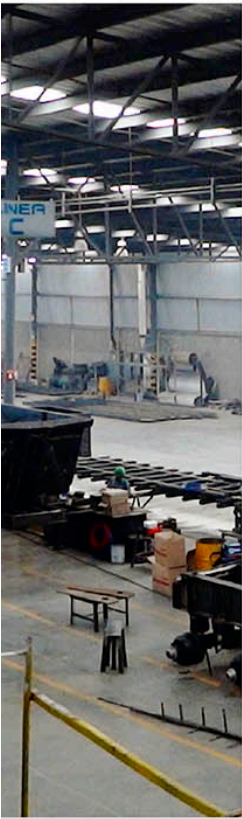

- World-Class Quality
- Customized Designs
- Extensive Pre- and Post-Fabrication Services
- Competitive Pricing
- New, State-of-the-Art Manufacturing Facility
- Best-in-class Customer Service
- On-time delivery, Guaranteed
- Worldwide shipping

With more than 150,000 sq. ft. of manufacturing space, an ISO 9001-2008 registered facility, EXA is a trailer, tank and truck body manufacturer with the objective to develop customized transportation solutions delivered with best-in-class quality, value and reliability.

EXA's products and processes have been polished carefully over the last three decades. EXA strives to create long-lasting customer relationships.

▲ Enrique Martínez Cassani
CEO and Founder

Philosophy

EXA's business philosophy combines four basic elements: best-in-class customer service, unwavering quality, highest product value and on-time delivery. Satisfied customers have built EXA's outstanding reputation since 1979.

EXA listens to customers' needs while collaborating and creating solutions to maximize operations efficiency. EXA strives to manufacture the highest quality trailers by developing designs for manufacturability, implementing employee-training programs and purchasing only the industry's best components and materials. This dedication to quality and developing innovative solutions has made EXA the preferred choice by many top companies in the Americas, Middle East and Africa.

EXA strives to provide the highest value product by continuously improving manufacturing processes and designing for efficiency, durability, safety and serviceability. Additionally, EXA strives to meet or improve delivery dates by proactively working with vendors and production schedules.

As an EXA customer, you can depend on us to provide engaged people, efficient equipment, innovative designs and quality materials necessary for YOUR success.

Trailers

Elliptical or Cylindrical Tanker

- For fuel and crude petroleum
- Up to 11,800 gallons capacity
- Stainless steel or steel composition
- Bottom load and unloading
- Tandem or Tri-axles

165 bbl Vacuum Trailer Non-code

- 6,930 gallons capacity
- For water and oil field fluids
- Steel composition
- High solids epoxy liner
- Tank length through-treaded walkway
- Tri-axles

130 bbl Vacuum Trailer Non-code

- 5,460 gallons capacity
- For water and oil field fluids
- Steel composition
- High solids epoxy liner
- Tank length through-treaded walkway
- Tandem axles

130 bbl Kill trailer Non-code

- 1,680+3,780 gallons capacity
- For water and oil field fluids
- Steel composition
- High solids epoxy liner
- Middle tank section walkway
- Belly line
- Tandem axles

120-200 bbl Acid Trailer DOT 412

- For acid and chemical oil field fluids
- High solids epoxy liner acid resistant
- Steel composition
- For pressure larger than 25 psi
- Tandem or Tri-axles

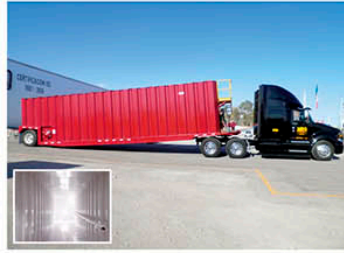

130- 200 bbl Acid Trailer DOT 407

- For acid and chemical oil field fluids
- High solids epoxy liner acid resistant
- Steel composition
- Tandem or Tri-axles
- For pressure in between 10 and 24 psi
- Tandem or Tri-axles

500 bbl Frac Tank

- For storage of water and oil field fluids
- Steel composition
- High solids epoxy liner
- Corrugated walls and round bottoms
- Internal or external manifold
- Single axle

1030 ft³ (38 yd³) Pneumatic Trailer

- For cement and sand and other dry bulk commodities
- Steel composition
- Three hoppers with aerators
- Tandem axles

4,100 ft³ (152 yd³) Pneumatic Storage Tank

- For storage of dry bulk commodities
- Steel composition
- Six hoppers with aerators
- Single axle

72 yd³ Grain Trailer

- For grains and low density dry bulk items
- Three bottom unload gates
- Steel composition
- Tri-axles

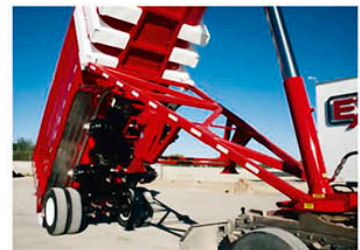

Heavy Duty End Dump Trailer

- For gravel and other loose materials
- 39 yd³ capacity
- Tandem or Tri-axles

Light Weight End Dump Trailer

- For gravel and other loose materials
- 30 yd³ capacity
- Tandem or Tri-axles

Trailers

Super HD End Dump Trailer

- For rocks and high abrasive materials
- 39 yd³ capacity
- Hardox body
- Tandem or Tri-axles

Hybrid End Dump Trailer

- Carbon steel side walls with Hardox floor and gate
- For rocks and high abrasive materials
- 48 yd³ capacity
- Tandem or Tri-axles

Half-round End Dump Frameles

- For gravel and other loose materials
- 26-30 yd³ capacity
- AR400 or Hardox body
- Tandem or Tri-axles

39 yd³ Walking Floor Trailer

- For recycling, agriculture, energy generation construction and wood products
- Pneumatic door
- Tandem or Tri-axles

130 yd³ Walking Floor Trailer

- 35 ton capacity
- For loose material, wood products, grains and waste
- Tri-axles

Light Bottom Dump Trailer

- 22 yd³, 35 tons capacity
- For gravel and other loose materials
- Electric over-air gate control
- Hutch H-9700, 48,000 Lb. suspension
- Tandem or Tri-axles

HD Bottom Dump Trailer

- Up to 70 ton capacity
- For gravel and other loose materials
- One or two pneumatic gates
- Electric over-air gate control
- Tri or Four axles

31.4 yd³ Cross Gate Bottom Dump Trailer

- 35 ton capacity
- For gravel and loose materials
- Tandem or Tri-axles

60 yd³ Side Dump Trailer

- 30 ton capacity
- For gravel and loose materials
- Length: 40 ft
- Tandem or Tri-axles

Lowboy Fix-neck

- Length: 30 ft - 50 ft
- 30-70 ton capacity
- For Heavy Equipment
- High resistance steel composition
- Tandem to four axles

Lowboy Fix-neck

- Length: 45 ft
- 30-70 ton capacity
- For Heavy Equipment
- Tandem to four axles

Drop Deck Trailer

- 10-55 ton capacity
- For heavy equipment and freight
- Tandem and Tri-axles

Trailers

Flatbed Trailer

- Length: 25 ft -53 ft
- 30, 40, 50 ton capacity
- For freight
- High resistance steel composition
- Tandem or Tri-axles

Enclosed Cargo Trailers

- 130 and 157 yd²
- Up to 18 ton
- Up to 46 ft long
- For high volume and low weight cargo
- Single or Tandem axles

Specialized Cargo Trailers

- For transportation of auto, motorcycles, landscaping equipment, and many other uses
- Custom designed to meet specific needs
- Torflex[®] rubber torsion suspension
- Single or Tandem axles

Concession Trailers

- Customized designs
- Single and multiple compartments
- Inside: Full coverage with vinyl liner panel, aluminum or stainless steel
- Exterior: White aluminum
- Torflex[®] rubber torsion suspension
- Tandem or Tri-axles

Multi-purpose Enclosed Trailer

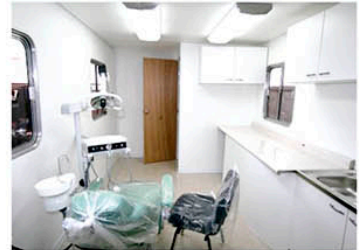

Multi-purpose Enclosed Trailers

- Length: 12-33 ft
- For office, medical, emergency response, school, restroom, office, storage
- Insulated and fully equipped per customer specifications
- Torflex® rubber torsion suspension
- White aluminum exterior

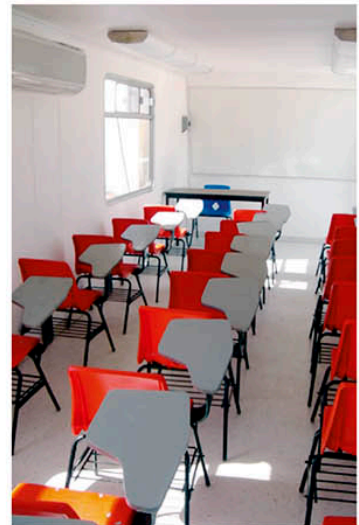

Medical Trailer

- Insulated and fully equipped per customer specifications
- Energy self-sufficient

School Trailer

- Open or custom interior design
- Energy self-sufficient

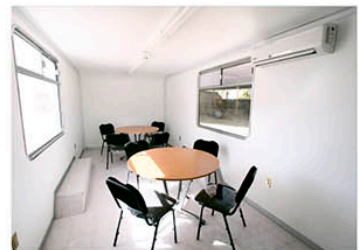

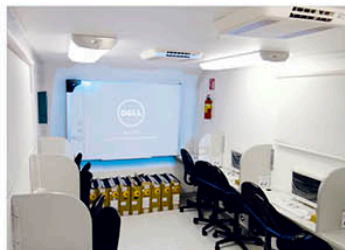

Restroom Trailer

- Custom interior layout
- Electrical and plumbing systems installation

Office Trailer or Container

- Custom interior layout
- Electrical systems installation

Truck Body

Elliptical Tank Truck Body

- 2,000-5,000 gal capacity
- For water spreader, refueling vehicle, and more

Orchestra Tank Truck Body

- For water, oils, chemicals, lubricants and fuels
- Compressor and pump installed

Pneumatic Dry Bulk Truck Body

- 565 ft³ capacity
- Three hoppers with aerators
- For dry bulk commodities

Enclosed Cargo Truck Body

- 20-130 yd³
- For city grocery and packaging distribution, moving and other services
- Side door, lift gates, barn and roll-up doors available

9-26 yd³ End Dump Truck Body

- High resistance steel dump body
- For gravel and loose materials (18 yd³ and 16 ft long in pictures)

15-26 yd³ HD End Dump Truck Body

- Hardox[®] body
- For rock and abrasive materials (16 yd³ in pictures)
